THE Luxury Series

Our Luxury Range has been designed for the high-end experiential market with a focus on the detail. Each immersive design is unlike any tent on the market with the ability transform a tent into a superior performance tent, we like to call it 'looks like a tent, built like a house'. With thermally insulated walls and ceiling, each one of the tents offers exceptional energy efficiency, ensuring optimal comfort year-round.

UNIQUE DESIGNS

Each tent is designed with sustainable tourism in mind. With the unique designs, you are able to offer a different experience to your guests.

GREENER FOOTPRINT

Eco Structures eco-friendly system ensures a greener foot print with, Eco Anchors, GOTS Certified - Global Organic Textile Fabric, endlessly recyclable structural steel system and reducing carbon footprint through flatpack designs.

FORWARD THINKING

The Hybrid Tent features WABi Wall Panels that are R3.3 insulation. We know no other competitor in the market can achieve this level of performance in a tent. No canvas bubble wrap, foil insulation or SIP panel on the market can compete with the WABi Panels performance.

ENERGY EFFICIENT

By investing in this hybrid tent, you not only provide exceptional comfort but also save on air conditioning and heating costs, maximizing returns per square meter of your property.

ECO TENT INCLUSIONS

- PVC Roof
- Canvas Ceiling and Walls
- Mesh doors and windows
- Steel structural frame – hot dipped galvanised steel
- All fixings required for install

HYBRID TENT INCLUSIONS

- PVC Roof
- Canvas Insulated Ceiling
- WABi Panels
- External Canvas Cladding
- Glass Sliding Doors
- Steel structural frame – hot dipped galvanised steel
- All fixings required for install

SERVICE INCLUSIONS

- Warranties
- Architectural & Engineering drawings
- Shipping support to your choice of port (additional charges)
- Local transport from port to site (To be advised as per country & project specifications)

SERVICE EXCLUSIONS

- Land & Access- Site preparation as per our suggestions
- Local Labour- Eco Structures can provide construction managers
- Architectural support- Eco Structures can provide at an additional Charge

WARRANTY

5 Year Limited Warranty

10-12 Year Estimated Life

Flooring WPC External Board

5 Year Limited Warranty

10 Year Estimated Life

HYBRID TENT WALLS

The WABi Panel is the highest performing proprietary structural insulated panel on the market.

Superior air and water resistance

Up to 7 year warranty

PIR Insulation Core for high thermal efficiency

Use any external and internal cladding to finish

Extremely lightweight for easy installation

THERMAL EFFICIENCY

Insulation rating R3.3.

STRUCTURAL INTEGRITY

Panels are fully bonded for the highest cyclone rating in the world (Cyclonic Region D).

ELECTRICAL & PLUMBING

Cabling and pipework runs between the panels, alleviating the need for complex and messy chasing or the installation of conduits.

SAFE

- Require less maintenance
- Minimise additional insulation costs
- Fire resistance
- Hypoallergenic
- Moisture resistant

EASE OF ASSEMBLY

Panels can be easily lifted into position by a small team. Joints are glued, with no requirements for mechanical fixings.

INTERNAL & EXTERNAL FINISHES

Suitable for any finish, internal and external, including the fixing of alternative sheeting such as Colorbond or Hardiplank.

COST EFFECTIVE

An investment saving clients on additional thermal insulation and heating and cooling expenses.

INDUSTRY LEADING

This single product is a significant advancement and innovation in the building construction industry.

x 165 more

Thermally efficient than a single skin canvas wall

x 30 Acoustic

dB rating than a single skin canvas wall

Structurally

built as a house

Able to withstand **high wind** and **snow loads**

75mm

Eco Structures
NEXT STEPS

Typical Eco Structures *PROCESS*

You are **HERE**

1	Identify full project scope		-	Business vision, architecture & design, rooms & facilities, pricing, brief formation.
2	Formal quote developed & supplied		1-2 month/s <i>Variable due to clients variations</i>	Select one of our tent options and go through sketch design and development with our team
3	Project Specifications Signed		-	Drawings can only begin after the deposit has been paid 10% deposit
4	Drawing Process		1 week <i>Variable due to clients variations</i>	Formal Architectural drawings supplied with all requirements for the project including final colour selections & specifications
5	Manufacturing Drawings		1-2 month	Once we have received deposit we will proceed with engineering & manufacturing drawings
6	Manufacturing		6-8 weeks	Our Freight & Logistics team will keep you updated with emails and phone calls
7	Shipment		4 weeks	Computerized tracking systems and any paperwork you need for the duties & Taxes.
8	Delivery to site		Variable	Remote areas may require longer delivery times due to limited accessibility.
9	Installation		4 days+ (per unit) <i>Approx variable on local skills. Multiple tents can be installed simultaneously.</i>	Assisted online / on-site, depending on what your project requires

90 - 120 days

10% deposit

Drawings can only begin after the deposit has been paid

40% progress claim

Manufacturing drawings can only begin after the progress claim has been paid

40% progress claim

Shipment can only begin after the progress claim has been paid

Final 10%

The final 10% is to be paid on arrival to your nearest port
