BRAND Story

Australian-Owned | International team | Global Supply
165+ Projects | 18+ Countries | 3205 Tents Sold

Eco Structures Australia manufactures and supplies cost-effective, environmentally sustainable accommodation solutions, architecturally designed to enhance your guests sensory experience.

We go beyond the limits of conventional accommodation to help you deliver meaningful experiences to your guests. We have built for customers around the world, meeting the needs of diverse environments, climates and terrain, from the red coastal cliffs of Australia, to the jungles of Costa Rica, the sands of Oman to the mountains of China.

Our sustainable Eco Tents fuse the charm of 'roughing it' with the creature comforts of resort style luxury to change the way the world interacts with people and places. Each structure is built to exist in harmony with each site's natural environmental, and our modular approach offers you the flexibility to create accommodation in line with the experience you wish to offer.

Every resort development is truly custom. We give you the freedom to 'make your own' masterpiece by hand-selecting various components that match your vision, such as bathpods, decking, glass front doors, luxury fittings and more.

Frequently Asked *QUESTIONS*

LEAD TIME

90-120 days to Manufacture
4 weeks Shipping
2-4 days to Install

LIFE SPAN

Each component of our Eco Tents have different lifespans. The structure is designed to last a lifetime, with canvas, decking and PVC replaced accordingly.

FOUNDATION OPTIONS

Choose our patented Eco Anchors as a solution for eco friendly footings. Or, where rock is present, concrete footings may be the solution.

CARE & MAINTENANCE

The maintenance required for Eco Tents is minimal. Store bought products can be used to clean any marks.

REPLACEMENT PARTS

We offer replacement canvas panels, decking and roof flys for when there is a need. Just remove the current panel or part and replace with a new panel.

TERRAIN OPTIONS

With our lift kits we can install our Eco Tents on any terrain. From the side of a hill, to over looking a lake. We have the solution you need.

HEATING & COOLING

Our Eco Tents can be heated or cooled with split system air conditioning, or a fireplace for the cooler climates.

HURRICANES/ WIND & FIRE RATINGS

Our Eco Tents are rated to 81mph-155 mph winds. The structure itself is designed to for hurricanes. They are also internationally fire rated.

SUB FLOOR SYSTEM

Our Eco Tents include decking and a steel sub floor, allowing for standard electrical fittings and waste management. Their elevated design also makes maintenance easier than traditional construction.

What To Expect
OUR PROCESS

Typical Eco Structures *PROCESS*

You are **HERE**
